**Forecast for Sunday 13 Jun 2021**

**Weather:** Some odd patches of mist forming in the valleys during the early hours, but quickly clearing following dawn. The rest of Sunday will be dry and very warm. There will be some fair-weather cloud around during late morning, but overall a day of long sunny intervals.

**Chance of cloud free mountain/hill tops above 800m:** 100%

**Visibility:** Moderate visibility in any early morning mist patches. Otherwise, very good visibility from hill tops through the day with no cloud expected to fall below the summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

**Meteorologist's View**

UV levels are expected to be very high and skies will largely be clear through Sunday. Therefore, wearing sun cream and skin protection is highly advised.

**Forecast for Monday 14 Jun 2021**

**Weather:** A band of low cloud will move across the park throughout Monday morning, which may also be associated with some patches of light rain. This will begin to clear shortly after midday, leaving a dry afternoon with sunny spells and scattered higher-level cloud. The evening will see a continuation of these clear spells with scattered cloud.

**Maximum wind:** Winds on the peaks will start as southwesterly 20mph, gusting 30mph, ahead of the cloud band in the morning. This will ease to a northwesterly 10mph, gusting 20mph, after the clearance of the cloud band in the afternoon.

**Chance of cloud free mountain/hill tops above 800m:** 20% in the morning, rising to 80% by 15:00.

**Visibility:** Extensive cloud in the morning with bases of 150-300m. Visibility becoming very good in the afternoon after the cloud has cleared, with bases lifting to above the summits.

**Temperature:** **Valleys:** Plus 11 Celsius, rising to plus 14 Celsius in the afternoon.
**At 800m:** Plus 10 Celsius dropping to plus 8 Celsius following the clearance of the cloud band.
**Freezing level:** Well above summits throughout the day.
